

Welcome to your dental plan and discount program

Thank you for choosing the Value dental plan and discount program from UnitedHealthcare. This option is designed to connect you to the dental care you need to move your health forward—with opportunities for savings along the way.

How your plan works

Your dental plan combines insurance coverage with a discount program. Benefits start right away, and there's no limit to the discounts you can receive.

Preventive care

When you see a network dentist, the plan covers 100% of exams, cleanings and other preventive services. If you see a dentist outside the network, your out-of-pocket costs may be higher. Your dentist will need to submit a claim to UnitedHealthcare for any preventive care you receive outside the network.

Preventive visits are important because your dentist may be able to catch problems earlier when they may be easier to treat. Good oral health helps protect your teeth and gums and is also linked to good overall health.

Save money on other dental services

Value Plan Network dentists offer discounts of 20%–50% for fillings, crowns, braces and teeth whitening. You don't need to file a claim, but you may need to pay for these services at your appointment.

Get the most from your benefits

- See a network dentist to receive 100% coverage for preventive care
