

Patient Saver Complete Program

The Patient Saver Complete drug list is shown below. Inclusion on the list does not guarantee coverage or manufacturer assistance eligibility, and this list is subject to change at any time. Some of the following medications are only available to be dispensed from select pharmacies. This limited distribution may be based on various factors such as special training or handling required.

PLEASE NOTE: Not all the drugs listed are covered by all prescription drug benefit programs; check your benefit materials for the specific drugs covered. For specific questions about your coverage, please call the phone number printed on your member ID card.
